## Conflicts of Interest in Educational Settings Policy

### Policy Statement and Purpose

---

The Liaison Committee on Medical Education (LCME) has established a standard outlining the requirement of a medical school to ensure students have the opportunity to obtain academic counseling and advising from individuals who have no role in decisions regarding their assessment or advancement, including individuals who prepare the MSPE. The VCU SOM has established this policy to ensure compliance with this standard, outlining the responsibility of both the student and the individual acting as an advisor in identifying when a conflict exists, and defining a process that ensures these individuals will not be involved in the academic assessment or promotion of the learner.

### Stakeholders
